are a crop never in surplus

20 Million

TREES

a Year!

Selected Seed for Perfect Trees

35,000,000 Last Year!

**We Transplant for Stronger Roots
Evergreen Ornamentals by the Acre**

More Folks Learn Each Year . . .

There Is a Difference

IT PAYS TO PLANT THE BEST

In 1956, Musser Forests, Inc. sold from its four nurseries, over 35,000,000 seedlings, transplants, and larger tree stock. This tremendous volume, almost double that of a few years ago when the Musser slogan was "20 Million trees a year," is good evidence that customers are satisfied that "Musser Trees Grow Best"—and that Musser values are tops.

Year after year, our customers return to buy Musser stock in constantly increasing volume.

We take the greatest care in every step of nursery culture. From selection of finest seed, through scientific care in the nursery beds, to proper packing for shipment, every detail is checked by our experts.

Musser trees are started right. Plant Musser trees and be sure!

Musser Selects True-Strain Seed

All tree seed is not the same. If the parent tree has undesirable qualities, its seed will perpetuate those qualities. To be sure of the best obtainable seed, we send men all over the United States to seek out mature, hardy, disease-resistant parent trees with straight stems and foliage of rich color.

We import seed picked from selected stands of timber in Europe, which have been developed through generations to bring out desirable characteristics.

Such selectivity is costly—yes. But it puts meaning into the phrase, "Musser Trees Grow Best."

Musser Root Systems Are Superior

The young Musser tree with strong, extensively branched, but compact, root system is the tree that survives. Good heredity characteristics through selection of seed is the basic requirement—careful handling and scientific culture in the nursery is also essential. The many additional feeder roots in Musser Cultured Tree Stock enable the young tree to extract the most food from the soil of your planting site. Musser Tree Stock is superior. It will survive where inferior planting stock will not.

Transplanting Makes More Roots

Stock is transplanted in our nurseries from one to four or more times. Each time, the longer, more easily damaged roots are reduced so that more small feeder roots develop near the stem. The more feeder roots, the more quickly the tree is established on your land. Also, the resulting compact mass of small feeder roots makes the tree easier to plant.

Each year, in the spring and summer, we transplant hundreds of thousands of seedlings to build more feeder roots. Results prove extra cost is repaid many times over.

Cuttings and Grafts Guarantee Qualities

To reproduce exact qualities desired in stock of a certain species, Musser Forests propagates by cuttings or grafts.

ROOTED CUTTINGS are small branches from perfect specimen trees, rooted in our propagation houses under controlled conditions of fertility, moisture and temperature. In cases where a species will not root from cuttings . . .

GRAFTS are produced by introducing cuttings of the desired quality on to hardy root stock of a related species. Grafting is a complicated cultural process covering some months.

COVER—The increasing demand for Plantation-grown Christmas Trees, pulp wood and timber indicate that low-profit marginal farm land should be planted in profitable trees — "A CROP NEVER IN SURPLUS."

Are You Planning for

- CHRISTMAS TREES
- TIMBER
- WHOLESALE ORNAMENTALS
- LANDSCAPING

Then . . .

BUY MUSSER TREES

. . . and Be Sure!

- 1** Retire marginal crop land by planting trees—a cash crop never in surplus.
- 2** Make a \$1000 investment to plant a 50 acre tract worth \$15,000 for timber in about 30 years (\$10 per acre each year.)
- 3** Trees bring a cash income but require no cultivation or extra care.
- 4** Bring early cash profits by thinning Christmas Trees from a forest plantation.
- 5** Musser Trees have no restrictions as to selling for Christmas Trees or as timber.
- 6** Plantation Christmas Trees are always at the top of the market.
- 7** Trees will increase the value of a property if it is being held for resale.
- 8** A Tree Plantation is an excellent savings account with a high rate of interest.
- 9** Trees will pay for a college education for your children if started early and properly managed.
- 10** Plant Musser Trees to retain water, prevent erosion, and restore fertility.

FRUIT TREES

No C. O. D.'s. All stock on this page must be paid for in full with order. Shipping charges will be prepaid on 6 or less; 7 or more, express collect. Complete planting instructions included.

DWARF FRUIT

Where space is limited, plant these dwarf fruit trees. They do not spread more than 10 to 15 feet. Most varieties start producing fruit the first year after planting. Fruit is as large or larger than standard trees. **PLANT TWO OR MORE VARIETIES FOR POLLINATION.**

DWARF APPLE TREES (3 to 4 ft.)	Each	Per 3
Select, branched. Cortland, Red McIntosh, Double Red Delicious, Yellow Delicious. (Descriptions below)	\$4.00	\$11.25
DWARF PEAR TREES (3 to 4 ft.)	Each	Per 3
Bartlett, Clapp's Favorite. (Descriptions below)	\$4.00	\$11.25

SHIPPED PREPAID

STANDARD APPLE

Your choice of those listed below. Plant two varieties for successful pollination (5 to 6 ft.).	1 to 6 each	7 or more each
	\$2.50	\$2.15

WRITE FOR SPECIAL QUANTITY PRICES

EARLY MCINTOSH. Ripens in August. Bright red, early Apple. The flesh is white, tender and juicy, with fine flavor. Ideal dessert Apple.

STAYMAN'S WINEAP. Comes into bearing young. A reliable cropper with medium to large-sized fruit. Slightly striped, coloring to dull red. Tree moderately vigorous.

YELLOW DELICIOUS. Ripens October to March. Bright golden yellow fruit of excellent quality. Firm, crisp and very juicy. Finest yellow Apple. Bears young and heavily.

RED MCINTOSH. Ripens in October. Very attractive red Apple of highest quality. Tender, juicy and refreshing. Hardy. Bears young and annually.

CORTLAND. Ripens November to February. Large red fruit similar to McIntosh. Very hardy and desirable as a cross pollinator.

RED DELICIOUS. Ripens December to February. Large, dark red Apple with crisp, fine-grained flesh. Excellent flavor.

STANDARD PEACH

Your choice of selected varieties listed below. Sturdy. (5 to 6 ft.).	1 to 6 each	7 or more each
	\$2.50	\$2.15

GOLDEN JUBILEE. We recommend this comparatively new, widely planted Peach. It is a real money-maker. Resists excessive cold and is a sure cropper. Early, large freestone with yellow, tender, juicy, sweet flesh. Ideal for home use and roadside market. Ripens August 20 to 25.

HALE HAVEN. Marvelous new Peach. Large, beautifully colored, yellow-fleshed fruit of the highest quality. Ripens 10 days to two weeks ahead of Elberta. Perfect freestone. Good shipper and a heavy bearer. Hardy. Extremely high color before ripening, allowing early picking for distant shipments. Include it in every planting. Ripens September 1 to 5.

EARLY ELBERTA. An excellent new variation on the famous Elberta. A little rounder in shape and about 10 days earlier in ripening. Freestone. Ripens September 6 to 10.

RED HAVEN. New, early Peach, thoroughly satisfactory in every way. It has the fine flavor of South Haven and Hale Haven. When other Peaches are still green, this one is bright red. Hardy; freestone. Self-pollinizing; prolific. Ripens August 20 to 25.

STANDARD PEAR

BARTLETT • CLAPP'S FAVORITE • SECKEL

1 Each of These Three Best Varieties (4 to 5 ft.)
THREE varieties needed for pollination ... Postpaid **3 for \$6.95**
\$2.50 each, postpaid; 7 or more, \$2.15 each, express collect

BARTLETT. Well known and adaptable to all situations. Large, golden yellow fruit with a reddish blush. Tender, juicy, with a delicious, musky aroma. The vigorous, long-lived trees attain large size. They start bearing when young and continue annually. Leading commercial and canning pear. Ripens September and October.

CLAPP'S FAVORITE. Precedes Bartlett, which it resembles in size, shape, color and flavor. The first Pear on the market. Large, pale lemon-yellow fruit with brown dots. Fine-textured, juicy, buttery flesh with a rich, sweet, delicate vinous flavor. Hardy and productive. Thrives where other varieties fail. Ripens August 15 to 20.

SECKEL. For eating fresh and pickling. Medium size; skin rich yellowish brown with deep brownish red cheek when fully ripe. Flesh fine grained, juicy, sweet. Resistant to blight; very productive and hardy. Plant in fertile soils. Ripens September and October.

If prepaid and Express Collect items are shipped together, entire shipment is Express Collect.

5-in-One APPLE

(5 varieties grafted on one tree)

- (1) Red Rome Beauty,
 - (2) Yellow Delicious,
 - (3) Lodi, (4) Cortland,
 - (5) Red McIntosh.
- Plant several of these novel trees for beauty, shade, and for fruit maturing over a long period.

4 to 6 ft.,
well branched.
Postpaid, only
\$3.75
each

STANDARD CHERRY

4 to 6 ft., 2-yr. Cherries.....	1 to 6 each	7 or more each
	\$3.15	\$2.75
	Postpaid	Exp. Coll.

SOUR CHERRY

LARGE MONTMORENCY. Good bearer. Bright clear red, good size, fine flavor. Eat right off the tree. Makes excellent pies and other desserts. Ripens July 15.

SWEET CHERRIES

Two or more Sweet Cherries must be planted for pollination.

BLACK TARTARIAN. Purplish black. Juicy; rich flavor.

NAPOLEON. Yellow. Flesh firm; flavor rich and sweet.

WINDSOR. Pinkish flesh; almost black skin. Large, juicy, firm.

PEAR

A Personal Message to You

We, here at Mussers Forests, take great pride—as an organization—in offering for sale a wide variety of nursery stock that is unsurpassed in quality in the nation.

Many miles of travel and long hours of research are devoted to obtaining the truest strains of seeds for our forest tree seedlings and the choicest cuttings for our ornamentals. Experienced propagators nurture the small plants with all the "know-how", patience and infinite care that the word "nursery" implies. Each new technique in fertilization, spraying and handling is carefully studied and tested before being accepted as general practice. We are striving, above all else, to offer plants that really are "The Best."

This catalog is our only salesman. Our business has been built upon your confidence in our integrity. Our expansion, on this basis, has been most gratifying. We can assure you that our business will be carried on—in the future as in the past—on the basis of quality and honesty.

Sincerely,

**Please Type or

Musser FLOWERING TREES

No C.O.D's. All stock on this page must be paid for in full with order. SHIPPED POSTPAID.

PINK FLOWERING DOGWOOD..... 2 to 3 ft. **Each \$3.95**
Outstanding among ornamental trees. A profusion of showy, rose-colored blossoms in spring. Deep red foliage in fall. Grows 15 to 20 feet tall.

WHITE FLOWERING DOGWOOD..... 3 to 4 ft. **3.25**
One of the most beautiful of all spring-flowering trees. Lovely petaled white blooms are borne on spreading branches early in spring. Leaves turn brilliant red in fall. Valuable when used in lawn border or as specimen plants. Unsurpassed for naturalizing effect. Grows 15 to 20 feet tall.

SAUCER MAGNOLIA..... 2 to 3 ft. **4.95**
One of the most hardy of the Magnolias. Large, fragrant, rose-colored flowers cover the tree in early spring. Blooms when very small. Select a sheltered location so flower buds will not be injured by late frosts. Grows 10 to 15 feet tall. Blooming size.

BECHTEL'S DOUBLE FLOWERING CRAB..... 3 to 4 ft. **3.25**
This choice Crab has endeared itself to many growers because of its spectacular display of large, double, rose-like flowers in spring which completely hide the branches. Blooms every year. In general it resembles an apple tree but is much smaller and finer branched. It grows in many locations and benefits from the same care given apple trees.

RED FLOWERING CRAB (Malus floribunda)..... 4 to 5 ft. **3.25**
This small tree is round topped, with single carmine buds that change to pink and then white. Very heavy producer of small, blood-red fruit. Will stand severe winters and drought. Grows 15 to 20 feet.

TREE WISTERIA..... 3 to 4 ft. **5.75**
No more lovely sight can be imagined than a Tree Wisteria in bloom. The purplish blue flowers completely cover the tree during May, transforming it into sheer beauty. In formal gardens it is indispensable. On the lawn it develops into beautiful specimens and lives for generations, increasing in beauty and dignity each successive season. Grafted, sure to bloom; balled in peat.

PINK FLOWERING CHERRY, Kwanzan..... 3 to 4 ft. **3.95**
A low tree, growing to 6 feet. It makes a striking appearance on the lawn because of its unique form and is especially attractive when covered with showy clusters of dainty, rose-pink flowers before the leaves appear in the spring.

JUDAS TREE OR REDBUD..... 3 to 4 ft. **Each \$2.75**
Fable tells us that when Judas betrayed Christ this tree immediately dripped all over with drops of blood, and that is the way it looks today when its blooms first come out. Later they turn to beautiful rosy purple. Blooms in April, before the leaves appear. 15 to 20 feet tall at maturity.

PURPLE FRINGE (Smoke Tree)..... 2 to 3 ft. **2.50**
A tree much admired for the curious fringed or hair-like flowers that cover it in midsummer and give a mystic, cloudy effect to the whole tree. Handsome foliage adds its share of beauty. Likes plenty of sunshine and light, well-drained soil. Grows to a height of 10 to 12 feet, and its spreading habit requires considerable space.

TREE HYDRANGEA..... 3 to 4 ft. **3.95**
Large pyramidal trusses of pure snow-white blooms appear in early August. As fall approaches they change to a luminous pink. At this stage they may be cut for all-winter dry bouquets. Flowers measure a foot long and 6 to 8 inches wide. A low-growing tree, standing not more than 4 to 6 feet in height.

PAUL'S SCARLET HAWTHORN..... 4 to 5 ft. **3.75**
Lovely flowering shrubs or small tree, growing about 15 feet tall, with spreading branches. The leaves are broad, the 3 to 5 lobes much toothed. The large clusters of double, brilliant rosy red flowers are produced in immense quantities. Fruits are scarlet. Well suited to the small yard, where a maple would be too large or create too much shade.

RED JAPANESE MAPLE..... 1 to 1½ ft. **6.50**
Grows no taller than 8 to 10 feet. Foliage is startling crimson all summer. Makes an excellent specimen for yard or formal garden. Has best color when in full sun, but will tolerate moderate shade. Trees moss balled.

ALMEY FLOWERING CRAB..... 4 to 5 ft. **3.95**
An outstanding Flowering Crab that bears dollar-size flowers of rich, glistening, fiery crimson in spring. This graceful tree thrives in poor soil and is perfectly hardy in cold sections. Only 12 to 15 feet tall but vigorous. Attains its mature height quite rapidly and blooms young. It thrives in full sun or partial shade. Recommended for small gardens. Profuse, small scarlet fruits cling to the branches long after the leaves have dropped.

\$1.00 Discount

On any group of 4 Flowering Trees listed on this page, deduct \$1.00 from total list price for 4 trees.

Flowering Shrubs

2-Year, No. 1 Blooming Size, 1½ to 2 feet tall.
Hardy, well-branched shrubs, shipped postpaid

CALYCANTHUS (Sweet-Scented Shrub)
Many know it as the Carolina Allspice. The handsome, bronze-chocolate flowers produced in June are most entrancing, because of their spicy fragrance. Odd-looking pods develop, which are filled with brown, aromatic seeds. Glossy corrugated foliage adds to its unusual appearance. Grows 4 to 6 feet tall and spreads over an area equally broad.

Double GOLDEN KERRIA (Globe-Flower)
Button-like, golden flowers cover the bush all summer. The very dense, "sawtooth" foliage serves as an interesting background. In winter the light green, twiggy stems are very decorative. Grows 3 to 5 feet tall.

RED FLOWERING QUINCE
Covered with masses of semi-double, brilliant scarlet flowers in spring, even before the attractive, shiny green leaves appear. This 3 to 5-foot shrub is a "must" in landscaping.

BEAUTY-BUSH
A magnificent flowering shrub, growing to 7 feet. Upright-growing branches arch gracefully outward. During June they are weighted down with pink, bell-like flowers. Hardy; any soil.

DOUBLE MOCK-ORANGE
Pure white, sweet-scented, double, 2-in. flowers in May and June. Will tolerate smoke and other hard city conditions. Grows to an ultimate height of 4 to 6 feet.

SWEET HONEYSUCKLE (Lonicera tatarica)
Dainty, small, pink, trumpet-shaped flowers in May, followed by a profusion of red berries. Makes a large shrub, 6 to 8 feet in both height and width. Excellent for screening and specimen planting. Grows in the poorest soil.

CARDINAL SHRUB (Weigela Vaniceki)
Blooms in spring, summer and fall. Plants set out in fall will bloom the next season. Grows 6 feet tall. Produces large, trumpet-shaped, rosy red flowers.

PEEGEE HYDRANGEA
A tall, stately shrub growing 4 feet in height. Branches bend over with giant, cone-shaped flowers which are white at first, then pink, and late in fall turn to copper and bronze. When cut, they last for weeks indoors.

FORSYTHIA, Spring Glory
A new Forsythia which bears masses of large yellow blooms. Canes grow erect, with gracefully drooping tips. Hardy in all sections; ordinary soil.

RED SPIRAEA
A choice, low-growing shrub, distinctive in style and form. Masses of showy, bright crimson flower clusters from July to frost. Ultimate height 18 to 24 inches.

Musser Forests General Offices

Featured in the foreground above is an attractive **ILEX JAPANESE HOLLY** hedge. Ilex has an unusually good ornamental form, twice as broad as high. Withstands shearing well. Also excellent as individual specimen plant.

This **HEMLOCK** hedge has been kept to height shown for 17 years. Hemlock is very versatile, may be maintained at any desired height.

A **YEW HEDGE** is among the best. Thick growth and lustrous, dark green foliage. Can be sheared to any form.

HEDGES and WINDBREAKS

The well-known **BARBERRY** always makes a satisfactory hedge, sheared or natural. Brilliant red berries in fall.

MUGHO PINE makes a dense, spreading hedge, hardy, may be sheared to any form.

HEMLOCK also for a beautiful, dense **HIGH** hedge. Gives privacy, stops winter winds and diverts summer breezes where needed. This hedge is 10 years old.

White Pine, Austrian Pine and Scotch Pine are among the faster growing evergreens for **WINDBREAKS**. Plant double rows about 6 feet apart with offset for spacing best protection.

LOMBARDY POPLAR is well known as an effective screen for buildings, accent for entrance drives, or a background where terrain lacks novelty. Grows rapidly and thrives readily.

HEDGES

Many types of nursery stock can be sheared and developed into beautiful, lasting hedges, since they can be kept at almost any height for years. Start with small plants and shear the new tender growth each year to the desired form and height.

ROSA MULTIFLORA—Living Fence			
Excellent wild life shelter and food.			
Graded 3 mm. and up	10-18"	10.00	50.00

AMUR RIVER PRIVET			
Hardest and best for northeastern conditions. Will grow 10 feet but may be pruned to any height or form. Branches upright, foliage oval or oblong; made denser by pruning. Hardy, almost evergreen. Two or more branches each plant.			
6-12"	12.00	60.00	
12-18"	16.00	80.00	
18-24"	20.00	100.00	

BARBERRY—Red			
Unusually good red color. Excellent hedge plants. Red leaves in summer, red berries in fall-winter.			
2-yr. Seedlings	6-8"	8.00	40.00
2-yr. Seedlings	8-14"	11.00	55.00
3-yr. Seedlings	12-18"	15.00	75.00

BARBERRY—Green			
2-yr. Seedlings	6-12"	6.00	30.00
2-yr. Seedlings	12-18"	8.00	40.00
3-yr. Seedlings	18-24"	12.00	60.00

SPACING FOR HEDGES. LOW Hedge, 8-10 in. apart, or double rows 12 in. apart—
MEDIUM Hedge, 3 to 4 feet, plant 1 to 2 feet apart—TALL Hedge, plant 3 to 5 feet apart.

WINDBREAKS

For an ideal windbreak select a fast growing tree. White Pine, Austrian Pine and Scotch Pine are among the faster growing evergreens that can be used for this purpose.

NORWAY SPRUCE—Fast growing type		Per 100	Per 1000
3-yr. Seedlings	8-14"	\$10.00	\$50.00
3-yr. Transplants	6-12"	13.00	65.00

WEeping WILLOW

NORWAY MAPLE

SUNBURST LOCUST

	Actual Size	Each	Per 3
PIN OAK	4-5 ft.	\$3.75	\$9.75
Forms a symmetrical, pyramidal head with long pendulous branches. The foliage is deeply cut and assumes a brilliant red autumn color. Because of rapid growth, it is much used for avenues and lawn specimens.			
WHITE BIRCH			
Clump trees, 3 to 4 stems.....	3-4 ft.	3.95	9.95
One of the most beautiful novelties in shade trees. When mature, bark is white and the leaves are a fine light green. Plant several in each location for a rare and picturesque clump, winning the admiration of your friends and neighbors.			
CHINESE CHESTNUT (Blight resistant)			
Whips to lightly branched.....	3-5 ft.	2.00	5.00
Heavy, well-branched trees.....	3-4 ft.	3.75	9.75
Will bear large, sweet, delicious nuts 2 years after planting. Very fast growing. Valuable as ornamental and for shade, as well as for fruit. Plant 2 or more for pollination. Grows 30 to 40 feet tall. See photo above.			
WEeping WILLOW, Wisconsin	6-8 ft.	3.95	9.95
Very rapid-growing tree with graceful drooping branches. Will succeed in any location but prefers moist soil. Especially effective near pools or river banks, along drives or as specimen plants. Frequent cutting back gives a thicker growth of bright green twigs. Grows 25 to 30 feet tall. Illustrated at left.			
NORWAY MAPLE	6-8 ft.	5.50	14.75
One of the best trees for street planting or for lawn specimens where good form and shade are needed. Its dense leaves are rich green and are held on tree about two weeks longer than other Maples. Grows 50 to 60 feet tall. See photo at left.			
SILVER MAPLE	5-6 ft.	3.75	9.75
Most rapid grower of all Maples. A large, spreading tree which, at maturity, has a height of 60 to 70 feet. A cut leaf with a silvery cast, and also a silvery bark. Sap is good for sugar making.			
SUGAR MAPLE (Hard Maple)	6-8 ft.	5.50	15.75
Brilliant scarlet, orange and yellow foliage in fall. Mature trees are the source of delicious maple sugar from sap in spring. Handsome form. Photo on next page.			
CRIMSON KING MAPLE	5-6 ft.	6.50	18.50
You will want to be one of the first to own this new tree. It is a beautiful form of Schwedler Maple, originating in Europe. Like the Schwedler, it develops a rounded, compact top of unusual symmetry, but differs in having foliage of deep purple-crimson all through the growing months.			
CUT-LEAF WEeping BIRCH (Silver Birch)	4-5 ft.	4.50	12.75
Graceful white-barked tree with delicate drooping branches. One of the few shade trees under which grass will grow. The white bark, which develops a year or two after planting, is beautiful in all seasons. Grows 20 to 30 feet tall.			
LOMBARDY POPLAR	5-6 ft.	1.50	4.00
Tall columnar tree, ideal for use as screen or windbreak. Thrives in wide range of soil and climatic conditions. Grows unusually fast; requires no pruning. Grows 60 to 80 feet. Photograph is shown on the next page.			
CHINESE ELM	6-8 ft.	4.25	11.50
For quick shade. A very rapid grower with small, dense foliage. Excellent for tall hedge or windbreak. Stands intense cold and extreme heat remarkably well. Excellent shade in 5 short years. Grows 30 to 40 feet.			
SUNBURST GOLD LOCUST (Trade-marked)	4-5 ft.	6.75	18.50
(Plant Pat. 1313.) New shade tree with brightest golden bronze foliage on 8 to 10 inches of branch tips. Completely free of thorns and resistant to insects. Well formed, with spreading habit; 25 to 35 feet. Supply this year definitely limited.			
MORaine LOCUST (Trade-marked)	5-6 ft.	6.50	18.50
(Plant Pat. 836.) This is a vigorous, fast-growing, seedless tree, shaped much like American Elm, but not susceptible to disease. A clean tree with no ugly, dangerous thorns and no seed pods. The leaves are so fine that, when falling, they practically disappear. Thrives in spite of smoke and soot, on all kinds of soil. Hard wooded; bends but rarely breaks or splits.			
BLACK WALNUT	3-4 ft.	3.75	9.75
Rich flavorful kernels. Does well in fertile, well-drained soil. Very hardy. Grows almost anywhere in the country. Produces annually large crops of nuts with rich, oily kernels of fine flavor. Fine for desserts, nut bread and confections. Tree grows 25 to 40 feet high; fast growing and long lived. Photo on next page.

SHIPPING SEASON

will begin about March 15, weather permitting, and continue until June 1. Orders will be filled as rapidly as possible from then on. All stock shipped in a dormant condition and may be safely transplanted in any part of the country, regardless of your season.

PARTIAL SHIPMENTS

It may be necessary to ship Roses, Berries, Fruit, Flowering and Shade Trees at a time different from other listed stock. You may receive several shipments before your order is completed. This notice is to save you unnecessary correspondence.

The figures 2-0, 2-1, 2-2-1 indicate the number of years the trees have been in the seed beds and the transplant beds. Thus the sum of all figures is the total age of the tree.

Number of Trees Required per acre

For different spacings

3 x 3.....	4,840	For Christmas Tree planting, estimate 2000 trees per acre.
4 x 4.....	2,722	
5 x 5.....	1,742

SCOTCH PINE

AUSTRIAN PINE

RED PINE

WHITE PINE

MUGHO PINE, SHEARED

From Musser Nursery No. 2, part of which is shown above, over 28,000,000 seedlings were shipped in 1956.

LANDSCAPING ORNAMENTALS

AUSTRIAN PINE

Good timber species. A beautiful, dark green, long-needled ornamental and Christmas tree, grown from selected seed from the Austrian Alpine region.

*18-24 in. each \$1.00
*24-30 in. each 1.50

*Sold with a lot of 5 or more.
Packed with ball of peat moss.

FRASER FIR

Often called Southern Balsam Fir. Shiny green foliage is lighter on under side. Has delightful fragrance and attractive purplish cones. Hardy. Good ornamental or Christmas tree.

*10-12 in. each \$1.00
*15-18 in. each 1.50

*Sold with a lot of 5 or more.
Packed with ball of peat moss.

NORWAY SPRUCE

Most rapid-growing and popular Spruce. Should be sheared when making rapid growth to insure bushy trees. Needles about 1 inch long.

*12-18 in. each \$1.00
*18-24 in. each 1.50
*24-30 in. each 2.50

*Sold with a lot of 5 or more.
Packed with ball of peat moss.

CANADIAN HEMLOCK

Lacy, graceful growing habit. One of the best plants for hedges, since it can be sheared to any size—can be kept low for years, or permitted to grow into a high hedge or windbreak. Can be planted in sun or shade.

*12-15 in. each \$1.00

*Sold with a lot of 5 or more.
Packed with ball of peat moss.

IRISH JUNIPER

JAPANESE YEW

Deep rich green foliage. Sun or shade. Successful where many ornamentals will not grow. Beautiful, natural cone shape. This Yew can easily be sheared for hedges. **Considered the leading ornamental evergreen by landscape specialists.**

Upright (Bushy, heavy)

*12-15 in. each \$2.50

Spreader

*12-15 in. (spread)..... each 2.50

*Sold with a lot of 5 or more.
Packed with ball of peat moss.

WHITE SPRUCE

Fast-growing strain. Similar to Norway Spruce except for its lighter color and slower growth rate.

*12-18 in. each \$1.00

*18-24 in. each 1.50

*Sold with a lot of 5 or more.
Packed with ball of peat moss.

JAPANESE HOLLY (Evergreen Shrub Type)

True strains from rooted cuttings. Unusually good ornamental form, twice as broad as high. Nicely branched for specimen plants—withstands shearing well when used as hedge. Excellent evergreen hedge or individual specimen plant.

Ilex convexa

(Convex-Leaf Holly)

*12-15 in. each \$1.75

Ilex crenata Hetzi. Transplanted rooted cuttings. Very shiny, convex-shaped leaf. Larger leaf than Convexa.

*8-10 in. spread, 8-12 in. height..... each \$0.80

*Bare root. Sold in lots of 5 or more.

Ilex rotundifolia
(Round-Leaf Holly)

*10-12 in. each \$1.75

*Sold with a lot of 5 or more.
Packed with ball of peat moss.

BALSAM FIR

Fine fragrance. Grows best in the northern states, in a cool, moist climate.

*12-18 in. each \$1.00

*18-24 in. each 1.50

*Sold with a lot of 5 or more. Individually packed with a ball of peat moss. These are field grown, well branched for an early ornamental.

RED BARBERRY

Unusually good red color. Excellent hedge plants. Red leaves in summer, red berries in fall-winter.

Per 100 Per 1000

COLORADO BLUE SPRUCE

Excellent stock—finest in the country. One of the finest for ornamental and Christmas tree use. Sturdy and compact in form; straight stems. Range in color from slightly blue-green to marvelous blue. The seed has been collected at very high cost from trees showing only the best characteristics. Rather slow growing. If moist, will grow well on sandier or heavier soils than most Spruce.

SPECIAL No. 10

HOLLY Special

This offer includes 6 plants of two different varieties:

4 Hardy American Holly—pyramidal tree type

These have glossy green leaves and brilliant red berries. Included are three female plants producing red berries, and one male plant for pollen. (Illustrated on preceding page.)

2 Japanese Holly—evergreen shrub type

The above plants are all 4 to 6 inches high, with a mass of roots developed in 2½-in. pots.

Shipped postpaid at proper planting time.

All 6 for \$5.95

Rhododendron-Azalea

Special No. 9

Nursery Grown from True Strain Hybrid Seeds

BRING GORGEOUS COLOR TO YOUR GARDEN!

These are all 2-year Transplants 4 to 8 inches tall, shipped in individual planting bands, with an abundance of fine roots and large leaves. The Rhododendron are hybrid seedlings grown from Red flowering stock; the Azalea are Evergreen, mixed colors (no color choice), Pink, Salmon and Orchid, grown from cuttings. This is an outstanding value. The gorgeous flowers will add greatly to your garden's beauty. Both Rhododendron and Azalea are hardy and prefer partial shade and acid soil.

6 RHODODENDRON 6 AZALEA

All 12 Postpaid for Only \$5.95

Your Rhododendron and Azalea will be shipped in plant bands, protected with polyethylene plastic, and strongly wrapped to insure arrival in perfect condition.

Musser FLORIBUNDA ROSES

HARDY NORTHERN-GROWN PLANTS. All Prices Postpaid

Floribundas are top-notch for borders and general mass planting. They grow taller and much bushier than Hybrid Teas, and the plants are simply covered with masses of bloom in one wave after another all summer long. They are most effective in beds or borders of one variety. Blooms are carried in clusters; some varieties are semi-double, some very double, and others are like perfect miniature Hybrid Teas. Floribundas are very easy to care for and will repay you many times over for the space they occupy.

PINK GARNETTE. Small, ovoid buds opening to flat, double blooms of Tyrian-rose. Leathery, imbricated petals; Old Rose scent. A vigorous, branching plant. Ideal for corsages and flower arrangements. Plant Pat. 1120.

GOLDILOCKS. A charming Floribunda with masses of rich golden yellow bloom. Each flower is shaped like a small Hybrid Tea, about 3 inches across when fully open. A spreading, bushy plant with dark foliage. Very popular. Plant Pat. 672.

RED PINOCCHIO. Large, unfading clusters of rich carmine. The flowers are of interesting cupped form, about 3 inches across. Delightful perfume, like wild Roses. Bushy and very free flowering. Plant Pat. 812.

SUMMER SNOW. Purest white flowers, very double and fragrant, blanket the bush. It grows only 20 inches tall, making a fine border or low hedge plant. Attractive light green foliage. Blooms profusely all summer long. Plant Pat. 416.

INDEPENDENCE. Very brilliant orange-scarlet flowers in clusters of six or more. Does not fade in the sun. Flowers are very large for a Floribunda. Grows 2½ to 3 feet tall, making a very compact bush. Plant Pat. 1036.

GARNETTE. A fine florists' variety that also makes a splendid garden Rose. Small, double blooms of garnet-red, produced in great profusion on a bushy plant. Dark, leathery foliage. A favorite for making corsages.

\$1.75 each

**3
for
\$4.65**

Heavy Flowering CLIMBERS

Climbers are excellent for mass decoration and splendid for backgrounds in the garden. They give the largest quantity of blooms for your money and have many uses. They can be trained against a fence, on a pillar or against a garage, and may be left to trail on a sloping bank. They need the least protection and attention of any group of Roses.

BLAZE. The everblooming Paul's Scarlet Climber. Bright scarlet color that holds well. Masses of large, well-shaped flowers on long stems. At its best when trained on a pillar or post. Blooms in midseason and repeats during the summer and fall.

\$1.50 each

3 for \$3.90

CLIMBING SUMMER SNOW. Large clusters of snow-white bloom from July through October. Loosely double flowers, 2 inches across, of glistening texture, with golden stamens. Easy to grow. A vigorous climber or pillar reaching a height of 8 to 10 feet. Plant Pat. 400.

\$2.50 each

SPECTACULAR. A new orange-red climber, blooming freely in spring and fall. Very hardy. Blooms are 4 inches across and do not lose their striking color even in hot weather. Dark, glossy, cross-green foliage. Plant Pat. 1416.

3

for

\$6.60

CLIMBING GOLDILOCKS. The same rich golden yellow buds that are displayed by the Floribunda, and the same ability to bloom all summer. Fresh new buds keep replenishing the mass effect of rich yellow. Very vigorous and hardy. Plant Pat. 1090.

RED FLARE. Blooms of Hybrid Tea size, carried singly and also in clusters. Rich, clear deep red, with 40 to 50 firm petals. The plant grows quickly when established, reaching 7 to 8 feet in height. Plant Pat. 1366.

See also pages 8 and 9 for **PATENTED ROSES** and **HYBRID TEA ROSES**

ROSE HEDGE ROSA MULTIFLORA THORNY TYPE

A Living Fence — A Winter Paradise for Wild Bird Life

ROSA MULTIFLORA is a tall growing, very thorny shrub, like the wild rose. Very hardy even in poor soil. Grows 2 to 3 feet in a single season to an ultimate height of 6 to 8 feet. Ideal for use as living fence for farm use—keeps in cattle, horses, SHEEP and GOATS. Makes fast growing ground cover. Pinkish white blossoms literally cover plant in June. These are followed by profusion of large red berries which attract game birds such as grouse, pheasant, and partridge, as well as smaller birds. During winter its arching branches provide protection from snow and cold as well as food for birds.

ROSA MULTIFLORA JAPONICA, thorny type, **BEST QUALITY, EXTRA HEAVY**, 3 millimeter (tops sheared, anything under 3 millimeter graded out).

10 to 18 inch — Shipping charges collect. Per 100 **\$10.00** Per 1000 **\$50.00**

RECOMMENDED SPECIES AND SIZES FOR Christmas Tree Planting

SCOTCH PINE

SPECIAL STRAIN SCOTCH PINE

In greatest demand in many areas. One of the most rapid-growing species. Brings top price, especially when sheared. Musser Special Strain Scotch Pine retains its blue-green or silvery green color in cold weather. Needles are 1½ to 2½ inches long, curved.

		Per 100	Per 1000
2-yr. Seedlings	(2-0) 3- 6 in.	\$5.00	\$25.00
2-yr. Seedlings	(2-0) 4- 8 in.	7.00	35.00
2-yr. Seedlings	(2-0) 5-10 in.	9.00	45.00
4-yr. Transplants	(2-2) 6-12 in.	20.00	xxx

AUSTRIAN PINE

Will do well where fumes bother other species. Very dark green needles, 3½ to 7 inches long. Bushy trees, strong branches. Will grow where most of top soil is gone. Increasingly in demand.

2-yr. Seedlings	(2-0) 3- 6 in.	5.00	25.00
3-yr. Seedlings	(3-0) 4- 8 in.	7.00	35.00
3-yr. Seedlings	(3-0) 8-14 in.	8.00	40.00

WHITE PINE

Very adaptable as to soil, and will do better on heavy, wet soils than the other Pines. Very soft, silver-green needles 2½ to 5 inches long. Needs shearing to be really compact. Favored in many areas.

3-yr. Seedlings	(3-0) 4- 8 in.	6.00	30.00
3-yr. Seedlings	(3-0) 5-10 in.	8.00	40.00
3-yr. Seedlings	(3-0) 8-14 in.	10.00	50.00
4-yr. Transplants	(2-2) 8-10 in.	12.00	70.00

AMERICAN RED PINE

A rapid-growing, bushy tree, very popular. Dark green, soft needles, 4 to 5 inches long. Many buyers like it as well as Scotch Pine.

3-yr. Seedlings	(3-0) 4- 8 in.	7.00	35.00
3-yr. Seedlings	(3-0) 8-12 in.	9.00	45.00
4-yr. Transplants	(2-2) 8-12 in.	20.00	100.00

MUSSER EXCLUSIVE NORWAY SPRUCE (Fast Growing)

Most rapid-growing and popular Spruce. This short-needed tree should be sheared when making most rapid growth to insure bushy trees. Cut as late as possible.

2-yr. Seedlings	(2-0) 5-10 in.	7.00	35.00
3-yr. Seedlings	(3-0) 8-14 in.	10.00	50.00
3-yr. Transplants	(2-1) 6-12 in.	13.00	65.00

WHITE SPRUCE

Similar to Norway Spruce but with more definite fragrance. Good in highland areas. Fine color and form.

2-yr. Seedlings	(2-0) 4- 8 in.	5.00	25.00
3-yr. Seedlings	(3-0) 4- 8 in.	6.00	30.00
3-yr. Seedlings	(3-0) 8-12 in.	8.00	40.00

COLORADO BLUE SPRUCE

Highly regarded for bluish color and bushy, symmetrical form. Needles hold somewhat better than Norway or White Spruce. If moist, will grow on sandier or heavier soils than most Spruce. Slow growing, but is a premium Christmas tree.

3-yr. Seedlings	(3-0) 5-10 in.	10.00	50.00
4-yr. Seedlings	(4-0) 10-14 in.	14.00	70.00

DOUGLAS FIR

Compact, pyramidal form, with short, bluish green needles. Easily transplanted. Thrives in rather light soil. Our strain is selected for its hardiness. Fine for Christmas and ornamental tree.

3-yr. Seedlings	(3-0) 6- 8 in.	10.00	45.00
4-yr. Transplants	(3-1) 6-10 in.	16.00	80.00

MUSSER QUALITY ENABLES US TO SELL
20 MILLION TREES A YEAR
It Pays to Plant MUSSER TREES!

ENGLISH IVY — One of the very best EVERGREEN CLIMBING VINES and GROUND COVERS. Popular close clinging vine. Rich, dark green, glossy, three-lobed leaves make dense covering especially on brick or stone walls. Thrives in any good soil and under smoky city conditions. Is evergreen the year 'round. For walls, fences, etc. Especially desirable beneath shrubbery.

PACHYSANDRA — Excellent in masses under heavy shade of trees. A dense, lustrous evergreen, trailing vine type of ground cover. It thrives under evergreens or anywhere. If planted 8 to 12 inches apart it will give a pleasing effect immediately and in two years' time forms a solid ground cover. Prefers shade; any soil, water liberally. It is **VERY HARDY**. Grows 6 to 8 inches tall. Fine for terraces or any place where grass is not successful.

GROUND COVERS and VINES

Lots of 50 at the 100 rate—shipping charges collect

ENGLISH IVY

(Evergreen Vine and Ground Cover)

Per 100 Per 1000

Rooted Cuttings..... **5- 9 in.** **\$15.00** **xxxx**

Mass of roots—sheared to 3 to 5 runners. Plants shipped with earth and peat moss, individually wrapped. Photo and description at left.

PACHYSANDRA TERMINALIS (Spurge)

Very best evergreen ground cover; hardy, thrifty.

1-yr. Plants..... **2- 4 in.** **9.00** **\$80.00**
